31. Apologies for absence were received from Joel Whymark. These were **approved**.

32. There were no declarations of interest or dispensations in items on the agenda.

33. Public Participation:

Concern was raised as to the impact of the GT16 development on the future of the village. The Neighbourhood Plan has not been followed on previous developments and it would be beneficial to see better community engagement. Disappointment expressed about the lack of public engagement from the developers when amendments were made to the Green Lane West developments by Norfolk Homes and Persimmon Homes. It is considered that there is an opportunity to engage with the Community on GT16 which should not be missed.

The Council took the opportunity to show appreciation for the support and work undertaken by David Edleston in bringing the flooding matters in the village to the attention of Broadland District and Norfolk County Council.
